NIJMEGEN, THE NETHERLANDS 4th-7th SEPTEMBER, 2024

Dear colleagues,

After the well-organized virtual EAONO meeting in London in 2021, we like to welcome you to the 2024 face-to-face EAONO workshop which will be organized in the oldest city of the Netherlands; Nijmegen. The beautiful and historically rich city of Nijmegen is located in the east of the Netherlands near the German border. A large percentage of the inhabitants of the city are in their 20's due to the number of schools and universities located there. The conference venue will be Concertgebouw de Vereniging, a concert hall officially opened in 1915 and built in a mixture of Art Nouveau and Art Deco styles. We are looking forward to an inspiring programme with state-of-the-art lectures, scientific presentations and discussions. Moreover, there will be ample opportunity to submit and present original papers. More information will be published soon on the website www.eaono2024.org

Looking forward to welcoming you
On behalf of the organizing committee

Jef Mulder and Myrthe Hol
