

We would like to express our feelings of hope for a prosperous future and peace for this coming year. This new year we enter with the expectation of normality in our lives, and with the certainty that we were able to overcome great obstacles and contribute to the advances of science.

We also invite you all to come to Sao Paulo, Brazil, to the next Politzer Society Meeting in November 2022.

A very peaceful Holidays and a year full of achievements,

Rubens de Brito
