## Introduction

The Madrid Institute of Otorhinolaryngology and Head and Neck Surgery counts with fifty years of experience in the field, with a prestigious medical team as well as a long academic tradition. We have always made a special emphasis on live surgery courses due to their educational value and it is so that they continue to play an important part in our continuing education program.

During the two days of the course there will be middle ear live surgeries, as well as lectures in regards to surgical techniques and radiology. This course is addressed to all otorhinolaryngologists interested in completing and increasing their theoretical and practical knowledge. The assistants will count with the presence of a qualified professional at all times.
